Laundry Range

For the clothes
that mean the
most to you

Fabric Care

We believe people look and feel their best when wearing their favourite clothes. That's why we are devoted to preserving that crisp new feeling, wash after wash, and keeping your clothes looking newer for longer.

With Electrolux, laundry care goes beyond expected, to a level you can see, smell and touch, even with your delicate garments.

Deeper clean

SensorWash™ designed to give your laundry a clean thorough wash. It detects dirt and detergent residue and adjusts wash and rinse cycle accordingly. It minimises water and energy use and saves you precious time.

New for longer

UltraMix™ premixes water and detergent in a special chamber before the beginning of the cycle to maximise cleaning performance at a low temperature, to ensure your clothes look newer for longer.

Smart connectivity

The Electrolux Life App allows you to be in control of your appliance. Choose your favourite program, add options, monitor the wash and receive notifications on-the-go. Get expert advice from our Stain guide, or use the Care Advisor to send the right programs to the machine just for you.

Handle with care

With Electrolux products in your home, you'll save precious time and even simple, everyday tasks become a pleasure. Laundry day transforms from chore to near joy with simple ways to care for your clothes so they feel like new every time you wear them. Your washer and dryer remember your favourite cycles, consume only what's necessary for pristine results and even offer programs that cut your ironing in half.

Washer

No more wrinkles

Vapour not only reduces wrinkles, it also eradicates up to 99.9% of allergens and germs for a clean wash that's more than just superficial.

Handle with care

You can safely trust your washer to treat your delicate wool garments with utmost care. Our wool cycle is proven to be gentle, even with your hand wash only woollens, keeping them as fresh and lovely as they felt when you first put them on.

Quietly efficient

Reduce your energy needs by up to 50%* with a powerful and reliable EcoInverter motor that cuts vibrations and noise to the barest whisper. The 10-years warranty means your washer will deliver, wash after wash, year after year.

* vs. conventional non-inverter models

Fit more in

Just back from a big trip? The new, extra-large door opening makes for seamless loading or unloading of your laundry.

Washer

Features

Smart connectivity

Electrolux Life App enables you to remotely control and monitor your appliances and also provides advice to help you care for your clothes and useful tips.

Care for hand-wash only woollens

Confidently wash precious hand-wash only woollen garments in our Woolmark approved cycle.

Automatically detects dirt and residue

SensorWash™ technology improves the rinsing performance and reduces detergent stains up to 80%* by automatically detecting dirt levels in the water and adjusts the cycle setting accordingly.

Quick cycles to suit your needs

Convenient 15 and 60 minute cycles provide flexibility and are great when time is short.

40% less colour fading

UltraMix™ technology pre-mixes detergent before it reaches your fabric, giving you up to 40%* less colour fading after 52 washes without compromising cleaning performance, even in cool water.

Add forgotten items, large or small

You can quickly add those forgotten items within 10 - 15 minutes after starting the machine. It can only be used when water level is below door and on program where water temperature is less than 50°C.

No over-loading, no over-washing

Load Sensor™ technology displays real-time laundry weight and intelligently recommends the detergent dosage and adjusts the time and water to deliver the best care for your clothes.

50% less energy consumption

EcoInverter motor means quiet, reliable performance with less vibration, and backed by a 10-year warranty. Experience seamless results, with up to 50%* reduced energy usage compared to models without it.

99.9% allergens removed

Vapour Care option finishes the wash cycle with a soft spray of vapour to remove up to 99.9%** of allergens and germs, where the vapour is produced at only 40°C to be gentler on your fabrics.

Quieter and durable

Noise reduction pack installed around the cabinet wall that reduces vibrations, absorbs noise and ensures greater stability during the whole washing cycle.

Wrinkles reduced, favourites refreshed

Vapour refresh quickly freshens and gently revives your garments without washing, in 35 minutes. Your clothes will emerge soft, smooth and fresh-smelling, with up to 23%*** less wrinkles.

Better visibility

Intuitive light that illuminates the drum upon opening the door.

Preserve your look for longer

SensiCare system protects clothes from over-drying by measuring temperature and humidity.

Easy loading and unloading

Large door opening makes loading and unloading the laundry easier than ever before.

Features are applicable to selected models.

Washer Dryers

Wash, dried and cared for in one go. You'll love the efficiency and performance of our washer-dryer range. Using the latest technology, they'll wash, then perfectly drying your clothes without compromising on stunning results. Saving you time in your busy day.

2-in-1

If space is an issue, a washer dryer is the right solution for you, with the best of both worlds in one compact unit.

Clean and dry in 60mins

When you need freshly laundered clothes in a hurry, the WashDry 60 program delivers. Designed to wash and dry a small 1kg load in just one hour, it's perfect solving that last minute clothing crisis.

Time efficiency

Featuring both a variable wash time and delay start, this convenient feature lets you select the time you want your wash to end. You can do your wash whenever it suits you.

Nice on knits

Our Woolmark Blue certification ensures your treasured hand wash only woollens can be washed safely, with no felting or shrinking.

Dryers

When your clothes are cared for, they not only look better, they last longer too. With our range of dryers, even your most delicate clothing is in good hands. From the large 9kg capacity and a 5-ticks energy rating, to the impressive range of features, you'll discover an easy way to expertly and gently drying your garments.

Careful drying, every time

With Electrolux's Delicate Care, every garment is dried at the temperature that suits its best. The fast drum movement on the wool cycle ensures wools are kept flat to reduce shrinkage. Alternatively select the silk cycle to ensure your delicate silks are gently kept aloft to keep their shape.

The SensiCare sensor measures the exact humidity and temperature to protect from over drying, while the intuitive tumble action helps dry clothes more gently and evenly. So, when you open the door, your clothes will look and feel fresh and ready to wear again

Gentle on knits

Taking care of your precious woollen garments is now even easier with our advanced Woolmark certified wool cycle. Created especially for machine washable woollen garments, you can safely tumble dry your woollens without shrinkage, stretching or felting.

Dryers

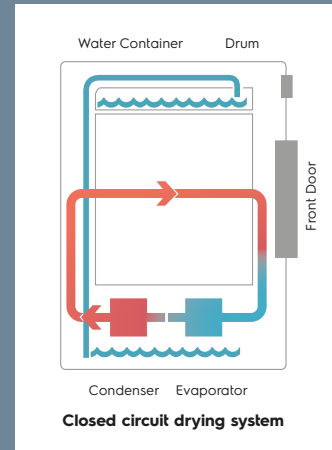

Features

Gentle drying with half the energy consumption

Heat pump technology puts less damaging heat stress on fabrics by drying effectively at lower temperatures to keep them looking and feeling new for longer. Exceptional performance with up to 50%* less energy usage than traditional machines.

How does it work?

1. Air is heated in a closed circuit system and circulated around the drum to dry your laundry until it becomes saturated with moisture.
2. The moisture that extracted out from your laundry will then condense and collect into the water tank.
3. The heated air and energy within the drying system are efficiently recycled within the closed circuit, hence less energy is needed to dry your clothes. In addition, the Heat Pump Dryer generates less heat externally and is gentle on clothes.

Smart connectivity

Electrolux Life App enables you to remotely control and monitor your appliances and also provides advice to help you care for your clothes and useful tips.

Care for wool, the easy way

Safely dries treasured machine-washable woollen garments in our woolmark approved cycle.

Precise care for everyday favorites

Smart Sensor measures humidity and adapts the drying time to prevent over-drying, reducing wear and tear.

Quiet, durable and energy efficient

Inverter motor reduces vibration to deliver quiet, reliable, and more energy efficient drying. With no compromise on performance.

80% less colour fading

Keep garments vibrant for longer with up to 80%** less colour fading vs. sun drying.

Better visibility

Intuitive light that illuminates the drum upon opening the door.

Up to 32% less wrinkles

Alternating drum movements prevent clothes from tangling to lessen creases by up to 32%.***

Complete fabric care solutions

Pair with UltimateCare washer for total fabric care solution and seamless design pairing.

Comparisons

Drying with care

Silk comparison

The DelicateCare 800 dryer gives you confidence drying your favourite clothes, whatever they're made of, even silk and down. The DelicateCare System with heat pump tailors low temperatures and drum motion to any fabric. Even your silk garments emerges with up to 50% less creases.

Down jacket comparison

The performance of a down jacket may deteriorate when washing and drying as the down is pressed into corners of the jacket over time. The DelicateCare System adjusts temperature and motion for exactly the correct care so the down is gently fluffed again and its protective abilities restored.

Air Dried

DelicateCare Function

Top Load Washer

This compact and time-saving washer not only gives you full control of how long each washing cycle should be, it is also gentle on your delicate garments.

Continental Top Load

Easy access

It gives you easy access to your laundry with a press to open the Carboran® soft and silent drum door. The inclined lower front allows better reach to your laundry.

Find no more

Drum Self-Positioning (DSP) ensures the door faces the top when the cycle ends. It saves you the trouble to rotate the drum to find the door.

Asian Top Load

Gentle yet powerful

Its Cyclonic Care function with its powerful upward water flow gives your clothes a deep clean yet gentle wash, so that your clothes are circulated evenly in the drum and do not tangle.

Quiet, durable and energy saving*

Enjoy a clean wash with up to 12% less noise and 40% reduced energy consumption with our inverter motor that cuts vibrations and noise.

* compare to non-inverter models
