- CareDrum
- Sanitise and DelicatesPlus
- Refresh clothes with vapour
- SmartSelect and TFT Display
- Up to 1400rpm spin speed
- Wi-Fi enabled

Intelligent, Precise Dose

IntelliDose machine uses sensors to deliver the optimal detergent dose for every load. With SensorWash, sensors detect any dirt left in your laundry during a cycle before adding a second dose of detergent if necessary. The machine also calculates the correct laundry time, water and energy - adding the precise amount of detergent.

Gentle Care for Your Laundry

CareDrum lets garment glide smoothly due to its elevated cushion-like drum pattern and lifter paddle. Thanks to the unique pattern of the drum, it is gentle on your clothes.

Right Settings to Help Save (TFT Display + SmartSelect)

Select the cycle and tune the intensity according to your needs. Based on your choice, SmartSelect with DynamicDisplay will provide feedback, adjusting the programme length and temperature, guiding you to save energy, time and water. Link your appliance to the Electrolux app to control your laundry remotely and receive resource-saving tips.

App-connected Clothes Care

Link your appliance to the Electrolux app to enjoy the ease of remote control. Get real-time status updates, resource-saving advice and garment care tips with Connected.

- Fuzzy logic adapts settings for great results.
- Quick cycles for single items or small loads.
- Soft-close lid closes silently and safely.
- TubClean keeps your machine hygienically clean.

Adaptable cycles

The fuzzy logic option automatically adapts washing, rinsing, and spin speed settings to deliver superb wash results. Sensors detect the position of clothes in the machine and carefully adjust drum movements to reduce tangling, while improved rinsing performance also reduces detergent stains.

Quick cycles for flexible wash

Quick washes give you the flexibility to adapt your laundry to your schedule. Quick cycles offer 3 level from 27, 28 and 31 for maximum 3.5 kg load.

Quiet. Safe. Efficient.

The soft - close lid utilises soft-closing hinges to ensure silent and safe operation. The scratch resistant surface can also be used as an additional work area in your laundry room to maximise space.

Clean machine. Clean clothes

The TubClean option keeps your washing machine hygienically clean and in optimal working condition for longer. TubClean spins the drum rapidly to create a high-pressure water jet that removes residues from the tub. By removing dirt and grime from the appliance you can continue to enjoy hygienically clean and fresh smelling wash results, every time.
